

Idealized Component View

To Study (ABCL)
Accessing Lisp Objects in Java

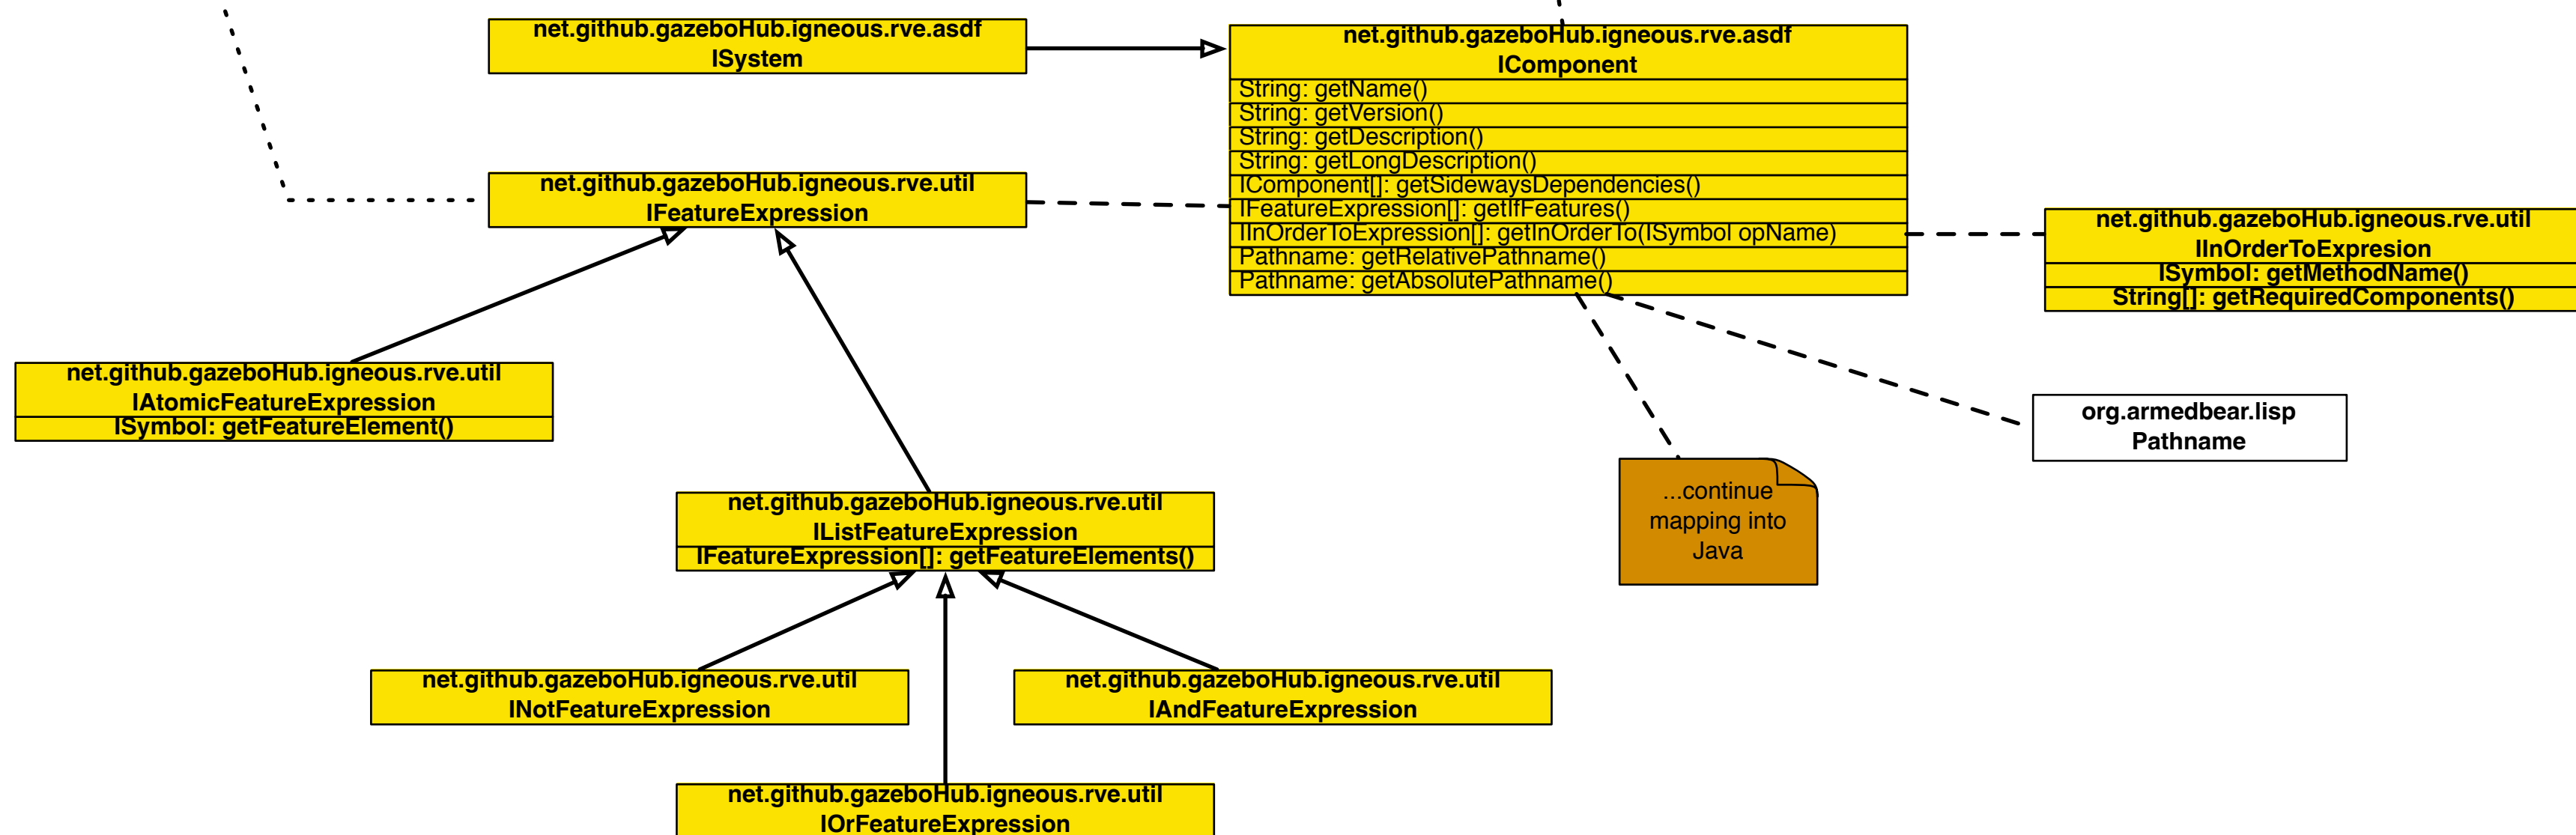

Would need to be accompanied with
an informative Java API for ASDF,
via ABCL

Would *not* need
to reimplement
ASDF in Java

Would *not* need to provide Java method operations except as interfaces to operations in ASDF (via ABCL)

To do: Develop a URI type for ASDF components, and a complimentary IFileSystem implementation

Lisp: CONS or Symbol, with a particular syntax. Refer to ASDF:FEATUREP

Eclipse API
